

Dear Cary Junior High parents and guardians;

The Math Department would like to invite you to a parent resource night. At this event you will be introduced to the McGraw Hill curriculum that your child uses in math class every day, as well as the resources that can help your child be successful this school year. The event will allow for you to learn how to access the math textbook online as well taking advantage of online tutors and extra practice specific to each lesson in the book. This parent resource night will be held on Wednesday, December 2nd from 7:00-7:45 pm. The event is going to be technology and resource specific, and is not a conference time for individual student concerns.

We hope to see you taking advantage of this wonderful opportunity.

Sincerely,

The 6th grade Cary Junior High Math Department
